
Los Anzi's

The revolution in the vegetable oil market

Known as Austria gold, our pumpkin seed oil impresses with an intense and unforgettable flavor combined with a striking dark green color. Our pumpkin seed oil opens up a new category in the European vegetable oil market that will allow chefs and passionate cooks to create new recipes or to add an innovative touch to traditional dishes such as salads, fish, meat, vegetable creams, pasta, desserts, bakery, confectionery and many more.

Since September 2018, the founders of the brand, two young Austrians, David and Bernhard Anzboeck ("The Anzis"), pursue the goal of adding value to the European Gastronomy by introducing their delicious, natural and healthy pumpkin seed oil. Their overall goal is to provide many exquisite moments to all lovers of excellent cuisine across Europe.
